I WOULD EVEN GO SO FAR AS

IT IS A MYSTERY WHY SOME PEOPLE CHOOSE TO LIVE THEIR LIVES THE WAY THEY DO. FOR SOME ALL IS AS IT SEEMS AND THEY LIVE THEIR LIVES ACCORDINGLY. FOR OTHERS NOTHING IS AS IT SEEMS AND THEY LIVE CUSHIONED IN FEAR though with little other difference from the matter-of-factors. But some live outside of everything and nothing. They are the mystery.

The Monte Carlo Method

Desire and fear are like two sides of the same coin. A man that runs to what he loves or runs from what he fears will cover the same ground. Enough of either one and you can't tell the difference. All the world is lost to memory, as is memory itself.

If only I could have analyzed the potential situation and prepared accordingly

AS YOUR LEGAL
COUNSEL I WOULD LIKE
TO INFORM YOU THAT
IT'S NOT ALL IT'S

THEN AGAIN, I SUPPOSE
YOU COULD GET ON
FORGETTING - AND
REMEMBER THINGS
EXACTLY AS THEY ARE.

AND SO, FOR NOW
AT LEAST, THAT IS EXACTLY
WHAT THEY DID.

AREN'T THEY LUCKY
A LIFE OF MEANDERING
DISCOURSE, EVER SEARCHING
TO HIT ON SOMETHING NEW.
ALL I HAVE TO HIT ON IS YOU.
AND IT SURE HAS BEEN
SOME TIME.

"A CRITICAL reading of war gives us meaning, to the tune of,
'HUMANISM and ECONOMISM are a pair.'" Althusser said that,
you remember him, the crazy Frenchman who strangled
his wife only to be put in a tower and admired from
afar. A man so professional in the domain of discourse
it protected his very life.

There is little reason to believe or even care that the world is round save for its reiteration of those old Euclidian rules and that one tower on the horizon that one time. The so called shape of the earth, studies show, is a reflection of gravity, and while the force is important for the launching of satellites and the study of distant (interstellar) objects, it is too grand a mystery for purpose. Why is the earth round - because the rules say so. But is it in the same way the rules say gravity distorts light? or the same way weight determines it informs individual or the cost of HAM? And so I may use the roundness of the earth, in some sense, but for now I care little that it is, in fact and order, round.
